ACKNOWLEDGMENTS

The Chairman and Members of the Transition Committee for Zurmi Local Government of Zamfara State wish to express their profound gratitude to the Executive Chairman of Zurmi Local Government, Hon. Samaila Husaini Moriki, for appointing us to be part of the local government rescue mission. This critical assignment grants us the opportunity to contribute our quota by conducting an in-depth analysis of the entire local government and suggesting a way forward. We thank all Councilors, Directors, and Staff for their cooperation with committee members. Others who owe the committee's appreciations are the principal officers and community members for their immense contributions and cooperation to the committee. Furthermore, the committee wishes to express special gratitude to Royal Highnesses the Emirs of Zurmi and Moriki for their fatherly advice and guidance. Our appreciation also goes to the security agencies and PHC's staff at the outpost of the local government. Finally, to everyone that contributed to the committee's successful assignment, we say thank you and God bless.

TERMS OF REFERENCE (ToR)

1. The committee is to access the staff strength of the local government
2. To access the projects under taken by local government, their locations and the level of completion
3. The committee is to access the finances received by the local government and expenses incurred since from inception to the date handed over

Background of Zurmi Local Government

Zurmi Local Government Area is one of the 14 local government areas of Zamfara State, Nigeria. The headquarters is in the town of Zurmi, which is located at 12°46'00"N 6°47'10"E. The area of the local government is 2,834 km²; the population area was 522,000 as per the 2022 projection. The postal code of the Zurmi Local Government Area is 882. The area known as Zurmi was inhabited by the Hausa people and other ethnic groups from the 15th century. The region was an important Centre for trade and commerce, with merchants coming from as far as the Sahara Desert. Before the arrival of British colonialists, Zurmi was a major kingdom in the region, with its own traditional ruler, the King of Zurmi. The kingdom was known for its rich cultural heritage, including its traditional architecture, music, and art. During the colonial period, Zurmi was part of the Northern Protectorate of Nigeria. The British colonialists established an administrative Centre in the town, which became the headquarters of the Zurmi District. After Nigeria gained independence in 1960, Zurmi became part of the North-Western State. In 1976, the state was renamed Sokoto State, and in 1996, Zamfara State was created, with Zurmi as one of its local government areas. Today, the Zurmi Local Government Area is a thriving agricultural and commercial center. The area is known for its production of crops such as maize, millet, and sorghum, as well as its livestock industry. The local government is working to develop the area's infrastructure, including roads, schools, and healthcare facilities.

RECOMMENDATIONS

1. There is need for the local government to determine the actual staff for full engagement to their respective duties
2. Local government should look way of engaging ADCs staff for improving the system of governance
3. Revenue is very important in building the capability of government, therefore the unit requires additional staff that will support the collection of revenue from various markets within the local government
4. There is need to create central payment system for the local government to unify its revenue collection from various departments and sources
5. To provide relevant Financial books of account for record and accountability purposes
6. Local government should consider the importance of central store which is currently not available in the local government
7. Local government should form a committee under the leadership of Director Agric. to conduct comprehensive survey/Demarcate its sketch of farmlands and gardens/orchards
8. Similar committee under the leadership of Director Health to conduct comprehensive survey/Demarcate the sketch of all PHCCs, PHCs, HPs etc to avoid encroachment and conflicts by the general public
9. The two newly created departments require serious attention considering their importance to the society. Therefore, the local government should find the possibility of providing offices accommodation for the departments and reallocate some staff into the two departments so that they can function effectively
10. There is need for demarcations of office functions between Women Affairs department and Social Development department. As its today, the two departments are working without boundary

11. Local government should set a committee to investigate and recover the diverted Cars and Tricycles with former Councils
12. With regards to Vehicles, the Committee recommends that, the Council should seek for advice from mechanical professional on those repairable and non-repairable for further necessary actions

CHAPTER ONE

INTRODUCTION

Preamble

This is a report of the transition committee on the Zurmi Local Government. It could be recalled that the executive chairman of Zurmi local government, Zamfara State, Hon. Samaila Hussaini Moriki, on the powers conferred on him, constituted a transition committee. The committee was mandated to find out the true situation and make observations and recommendations on assets and liabilities inherited from the immediate past administration. This is in line with the new administration's zeal and commitment to set the records of the local government straight.

The transition committee for the local government was inaugurated on Friday, the 6th of December, 2024, by the local government chairman. The committee has carefully studied all the terms of reference given to it and had worked within the time frame of its mandate with the support and assistance of all relevant stakeholders. It is our hope that all the committee's recommendations will be fully implemented for the transformation of the local government.

1.1 Inauguration of the Transition Committee

The transition committee of 11 members, headed by Dr. Dahiru Alhaji Bala Birnintsaba, was inaugurated by the executive chairman, Alhaji Samaila Hussaini Moriki, on Friday, 6th December, 2024, at the local government secretariat in Zurmi. All the members of the committee were present at the inauguration ceremony at the chairman's office in the local government secretariat.

1.2 Composition of the Transition Committee

The transition committee was made up of the following members:

Dr. Dahiru Alhaji Bala Birnintsaba	Chairman
Kabiru Muhammad Moriki	Member
Aliyu Muhammad Moriki (Dangado)	„
Lauwali Mande Zurmi	„
Iliyasu Garba	„
Haliru Labaran Zurmi	„
Barr. Muhammad Sadis Sulaiman	„
Engr. Abubakar Rafi Boko	„
Aliyu Musa Dauran	„
Ibrahim M. Umar Gidan Tsika	„
Alh. Sani Aliyu Moriki	Secretary

1.3 Terms of Reference

The committee's terms of Reference are to:

1. To access the staff strength of the local government
2. To access the projects under taken by local government and their locations, level of completion
3. To access the finances received by the local government and expenses incurred since from inception of last administration to the date of handing over
4. To access liabilities and otherwise
5. To comes up with recommendations and advise the local government
6. The committee is mandated to co-opt the representation of police, DSS and Civil Defense where necessary

7. The committee has fifteen working days to submit its report to the Executive Chairman for necessary action

1.4 Duration of the Committee

The committee has the duration of 15 working days to submit its report, starting from the day of its inauguration. To meet up with the time frame, the committee started the work immediately after the inauguration. During the period of the exercises, the issues of verification of local government staff and Christmas break intercepted; which mandated the committee to suspend its activities for 8 working days, thereby mandating the committee to seek an extension of additional 5 working days to complete its report.

1.5 Local Government Secretariat Departments

The committee contacted the following departments as stakeholders in the affairs of the local government.

1. Admin and General Services
2. Finance and Supply
3. Agric. and natural Resources
4. Work and Housing
5. Social Development Services
6. Planning, Research and Statistics
7. Internal Audit
8. Religious Affairs
9. Women Affairs
10. Primary Health Care (PHC)

CHAPTER TWO

METHODOLOGY

Introduction

On the first day of its sitting (Friday, 6th of December 2024), the committee invited all the heads of departments for a briefing and informed them about the appointment of the committee and visited some of the physical structures, movable and grounded vehicles, within the Local Government Secretariat.

A letter of the call for information (see Appendix A) was given to the various heads of departments.

2.1 Maiden Meeting of the committee

The committee held its first meeting at the office of the secretary to the local government and deliberated on the following:

- The Committee's Terms of Reference.
- Important Reference Materials/Literature required from the departments.
- Schedule of Activities/work plan
- Logistic requirements for the Secretariat
- Creation of three (3) sub-committees;

Sub-Committee 1: Admin, Religious and women affairs Departments

Sub-Committee 2: Finance, Planning and Audit Departments

Sub-Committee 3: Works, Social services, Agric and Health Departments

In carrying out its assignment, the committee adopted the following strategies;

- i Interactive sessions with the Heads of Departments and all Principal Officers
- ii Tour of Secretariat campus and inspection of structures

- iii Interactions/meeting with various agencies outside local government headquarters
- iv Interactions with some Staff
- v Visit to the Traditional Rulers (Emirs), Military, Police and Civil Defense

2.2 Interaction with Directors, Heads of Departments and Units

The committee led by the Chairman held a meeting with the Directors of various departments on Friday, 6th December 2024 in the secretary's office. The Chairman of the committee introduced members and informed the Directors' team of the purpose of the committee's exercise. He explained that it was not a witch hunting or faults finding mission but rather a form of fact finding mission with the aim of ascertaining the true situation of the local government and recommending to the government ways of improving the entire local government affairs. After reading out the Terms of Reference, the Chairman sought for the assistance and co-operation of the departmental Directors towards the achievement of the committee's objectives.

2.3 Tour of Secretariat campus and inspection of structures

Following an examination of the various submissions and oral interviews with the Heads of Departments, unit's heads, Staff, and other stakeholders, the committee further interacted with the following categories for confirmation of their submissions:

- Heads of Units
- Heads of PHCs, HCs and dispensaries

2.4 Tour of Structures within the Secretariat

Members of the committee undertook a tour of the structures within the secretariat premises as a site inspection on various structures including uncompleted projects, offices, Vehicles and Heavy machines. As shown in the plate 2.1 below

Plate 1 Tour around the Secretariat

2.5 Relevant Documents

The following relevant documents were presented to the committee by the various departments

1. General handing over note to the in-coming Chairman
2. Departmental inventories
3. List of sub-units of various departments and their inventories

2.6 Sub-Committees

Three Sub-Committees were set up to carry out extensive search for documents, materials and information on particular Terms of Reference. The materials were later cross-checked by the committee. This method of work encouraged the articulation of ideas and consensus of opinion by panelist which aided early and thorough completion of the assignment.

2.7 Visit to the Traditional Rulers (Emirs), Military, Police and Civil Defense

In the committee's efforts to ensure full inclusiveness of all stakeholders within the local government, the committee consulted the two Emirs (Zurmi and Moriki), military leadership (Captain), Police leadership (Divisional Police Officer) and Nigerian Civil Defense Corp leadership (Commandant) for their advises and input to the successes of the committee. The plate 2.2 displayed the pictures of our visit to Traditional Rulers (Emirs), Military, Police and Civil Defense.

Committee at Moriki Emirate Council

Committee at Zurmi Military Command

Committee at Zurmi Police Command

Committee at Zurmi Civil Defense

Transition Committee's Members

2.8 Sitzings of the committee

The venue of the transition committee sittings was the Secretary to the local government office which served as the initial Secretariat of the committee. The committee executed their assignment continuously on daily basis including weekends throughout the period of the exercise.

2.8 Limitations

This report has the following limitations:

1. The local government has inadequate documentation of records on its asset, properties and manpower
2. Insecurity challenge that could not allow the committee to access most of the facilities outside the local government headquarters
3. Use of third party to access some information

CHAPTER THREE

3.0 Departmental report

3.1 Administration and General Services

As a central organ of Local government, Administrative Department has submitted to the committee with staff straight, asset and traditional rulers' information as part of the requirement of the committee. According to the department, the number of staff is based on the three ADCs of the local government.

Table 1: Local Government Staff Strength

S/No	ADCs	Number of Staff
1	Zurmi ADC	867
2	Dutsi ADC	188
3	Moriki ADC	303
4	Total	1358

The actual staff strength to be clearly determined based on the outcome of local government verification exercise conducted on 24th to 27th of December 2024. The committee observed that, the three ADCs mentioned above are not practically existing as administrative bodies

3.2 EMIRATE COUNCILS WITH THE LOCAL GOVERNMENT

Zurmi Local Government area Consist of (2) Emirates viz:-

- (1) Zurmi Emirate Council with HRH. Alhaji Muhammad Bello Sulaiman
- (2) Moriki Emirate Council with HRH. Alhaji Bashar Isma'il Ari III

Table 2: Zurmi Emirate Senior and other District Heads

4	Alh.Mustapha Mohammad	Danjeka	Moriki
5	Alh. Abubakar Umar	Tudun	T/Bugaje
6	Alh.Hasanu	Rafi	Dunfawa
7	Alh. Balarabe	S/Gabas	Jaya
8	Alh. Ibrahim Na Umma	S/Kaya	Boko
9	Alh. Lawali Ibrahim	D/Galadima	Kwangwami

Equally, there are 36 Village Heads under the above mentioned District Heads from Moriki Emirate.

2.3 Provision of Housing accommodations to District Heads

Based on the information provided by the administrative department to the committee shows that, local government has provided to the following District Heads with housing accommodations in their respective districts. Even though some of the houses are still on going in construction, below are the details accordingly.

Table 4: Names of District Benefited with Housing Provision

Completed Houses	District Heads	Uncompleted Houses	District Heads

Observations

The committee observed that,

- 1) There is no central Store
- 2) There are no asset and revenue registers

Suggestion

That the local government should (as a matter of accountability) provide relevant books of accounts for maintenances and accountability in the affairs of the local government

CHAPTER FOUR

4.0 PROJECT UNDERTAKEN BY LOCAL GOVERNMENT, THEIR LOCATION AND LEVEL OF COMPLETION

4.1 Construction of Central Market and Motor Park at Moriki @ forty one Million Naira only (41,000,000.00) and Completed according to handing over Note

Findings of the Committee

The committee visited these sites to ascertain the actual situation of the above subject matter and the following were identified.

As part of the efforts of the committee to comes up with true situation of the constructions of both Market and Motor Park, the committee snap all the projects sites as shown in the picture below

Figure 3: Sites View of Market and Motor Park under construction @ Moriki

Market Construction @ Moriki town

Plot for New Motor Park @ Moriki

On the issue of the level of completion, the committee could not find an access to the Bill of quantity and valuation certificate from the Works and Housing Department of the Local Government to enable the committee to ascertain the quantitative values of work done with regards to market construction. On the issue of Motor Park, the committee could not locate any work done in the site.

4.2 Construction of the Office of the Executive Chairman and Renovation of Local Government Secretariat Mosque at twenty two million naira only (22,000,000.00) and work completed according to handing over note.

Findings of the Committee

The committee visited those sites located in the Local Government Secretariat and was able to comes up with the following

The committee snapped the two projects and presented below on their picture view

Figure 4: Construction and Rehabilitation of Office of the Executive Chairman and Local Government Secretariat' Mosque

Front view of Uncompleted Office of Executive Chairman @ Local Government Secretariat

Uncompleted Mosque @ Local Gov. Secretariat

Inner View of uncompleted Office of Executive Chairman @ Local Government Secretariat

The physical outlook of the projects as shown in the pictures above indicated that, the two projects are all uncompleted as mentioned in the handing over note to the Executive Chairman. On the issue of ascertaining the level of completion

the Committee could not access the Bill of quantity and valuation certificate from the Works and Housing Department of the Local Government to enable the committee to ascertain the quantitative values of work done.

Considering the importance of the two projects, the Committee therefore, recommended that, the executive council should visit the proceedings of those projects to determine the actual quantitative level of completions and to commence with further necessary actions to ensure their completion.

4.3 Renovation of Mayasa PHCC at Seven million, three hundred and forty six thousand naira only (7,346,000.00) and the project is uncompleted

Findings of the Committee

The project was located at the danger area where Committee could not visit physically due to insecurity challenges but the committee was able to use an insider in order to find out the reality of the project. The Committee requested from the insider to snap the whole building site of the project as presented in the plate 4 below

Figure 5: Renovation of Primary Health Care Centre at Mayasa

Renovation of PHCC @ Mayasa

Renovation of PHCC @ Mayasa

The picture above proved to the committee that the said project was uncompleted indicating that there is no any element of pact to ascertain the

completion stage of the renovation and thereby arrived that, the project have not been even started, since the award of the contract. However, the committee recommend that, the executive council should investigate the matter on this project to ascertain the possible means of commencing the project or otherwise.

Table 84: List of Constructed Dispensaries in Eleven Wards

S/No	Names of Wards	Location	Actual Location	Remarks
1	Boko	Boko	Gidan Dada	100% Completed
2	Dauran/Birnintsaba	Birnintsaba	Birnintsaba	Completed
3	Dole	Dole	Dole	Completed
4	Kanwa	Kanwa	Kanwa	Completed
5	Kwashabawa		Gurbin Bore	Completed
6	Mashema	Mashema	Mashema	Uncompleted
7	Mayasa/Kuturu	MPHC Mayasa	Mayasa	Uncompleted
8	Moriki	Moriki	Kayawa	Uncompleted
9	Rukudawa	Rukudawa	Dunburun	Uncompleted
10	Yanbuki	Dutsi	Dutsi	Completed
11	Zurmi	Kadamutsa	Kadamutsa	Completed

Findings of the Committee

The Committee was able to visit four locations of the above mentioned dispensaries due to insecurity challenges mitigating the areas. The sites visited include Boko (Gidan Dada), Dauran Birnintsaba (Birnintsaba), Kwashabawa (Gurbin Bore) and Kanwa towns. The committee established that, all the visited dispensaries were not habitable due bad roofings and cleanliness for lack of staff except Gurbin' PHC that was recently under renovation via NG-Cares program See the **Figure 6**. In addition, the construction of Boko (Gidan Dada) was through MDG program along with that of Jabanda town and all the two clinics were dilapidated as a result of that, Jabanda is now using a residential house of Turaki Ajala in Jabanda town. Refers to the **Figure 7**

View of dilapidated HC @ Jabanda

The other seven (7) dispensaries were not visited due security challenge, the committee used third party to find-out the true nature of the work. Those completed are Dole, Yanbuki/Dutsi (Dutsi) and Zurmi (Kadamutsa) are not in good conditions.

On the issues of uncompleted, the committee was able to identify that, the only uncompleted dispensary from Moriki (Kayawa) is still at stage of incompleteness while the three projects that include Mashema, Mayasa and

Rukudawa are not constructed at all. According to PHC department, the contract sum was converted to renovation of PHC Mayasa instead of constructing new dispensary in the ward but yet neither construction of dispensary nor renovation of PHC contract is executed.

In line with our findings, the committee advises that, executive should liaise with respective councilors of each ward in collaboration with Director of works and Housing, and Director PHC to visit the sites of the affected dispensaries to identify possible ways of making the projects useful to the communities. To equally identify and investigate the contractors of those uncompleted and unconstructed to ascertain the possible way of actualizing the projects

CHAPTER FIVE

5.0 GENERAL FINDINGS

In conclusion, the committee was able to find out the followings:

5.1 Finance (Revenue)

1. Lack of adequate manpower in the revenue section: The committee identified that, due to the retirements and death of staff in the department, the revenue officer has to employ casual staff to assist him in collecting revenue in some markets within the local government. Example Gurbin Bore, Zurmi, Moriki and Dauran Markets.
2. Non remittance of revenue collected from other departments to finance department (Main revenue account).
3. Revenue is not being collected on daily basis from Motor parks located within the local government.
4. No important/Relevant financial documents (Books and records of account) in almost all the departments.
5. No central store belonging to the local government, this creates a vacuum for the local government to have a good control of its belongings (properties).

5.2 Agriculture/ PHC Departments

1. No single surveyed/Demarcated sketch of farmlands and gardens/orchards in the department of Agriculture and Natural Resources. Similarly, Primary Health Care (PHC) Department has no proper documentation about their land demarcation of all their PHCCs, PHCs, HPs, etc. This resulted into trespass, encroachment which culminates to so many land disputes between communities and government officials.
2. The committee also find that, PHC Department was in the position of a Car for COVID 19, which is currently with former councilor from Moriki

5.3 Admin and General Services Department

1. Inadequate staff especially the junior cadre in all departments despite the large number of staff in the pay roll.
2. The committee observed that, the three ADCs (Zurmi, Dutsi and Moriki) are not practically existing as administrative bodies

5.4 Sources of Revenue

The committee considered it very important to identify major areas of revenue generation at the local government level which include:

5.4.1 Finance Department

1. Markets
2. Motor parks
3. Letter of Indigenes
4. Local government lock-up shops at Dauran, Gurbin Bore, Moriki and Zurmi
5. Grains Markets
6. Motor cyclist Union (Kabu-Kabu)
7. Mass Transit Services

5.4.2 Agric. and Natural Resources Department

1. Forestry Unit (Galadiman Daji) Fire wood, Timber etc
2. Slaughter Slaps (Abattoirs)
3. Produce
4. Timber processing fees
5. Tractors hiring
6. Fisheries at various water bodies

5.4.3 Works and Housing

1. Burrow Pits (Sand and Gravels)
2. Leasing/Hiring of plants and machineries
3. Issuance of certificate of occupancy
4. Tenancy rate for network service providers

5. Tenancy rate for petroleum stations
6. NATA Union
7. Canopy Rental

5.4.4 Primary Health Care Department

1. Annual fees from patent medicine stores
2. Grinding machines annual fees
3. Restaurant annual fees
4. Bakeries annual fees
5. Table water producers annual fees

5.4.5 Social Development Department

1. Town hall utilization for ceremonies (Zurmi and Moriki Town halls)
2. Private schools annual fees (to liaise with Education Secretary)
3. Video Viewing Centers
4. Reviving social activities as a source of revenue (Local Wrestling, boxing, drama etc)
5. Registration of clubs and societies

5.5 Liabilities of the Local Government

With regards to liabilities, there is no any official documents that were made available to the committee from finance or any other department as a liability to the local government.

5.6 General Recommendations

In line with the committee's findings, the following recommendations were considered to be essential in improving the current situations of the local government

1. There is need for the local government to determine the actual staff for full engagement to their respective duties
2. Local government should look way of engaging ADCs staff for improving the system of governance

3. Revenue is very important in building the capability of government, therefore the unit requires additional staff that will support the collection of revenue from various markets within the local government
4. There is need to create central payment system for the local government to unify its revenue collection from various departments and sources
5. To provide relevant Financial books of account for record and accountability purposes
6. Local government should consider the importance of central store which is currently not available in the local government
7. Local government should form a committee under the leadership of Director Agric. to conduct comprehensive survey/Demarcate its sketch of farmlands and gardens/orchards
8. Similar committee under the leadership of Director Health to conduct comprehensive survey/Demarcate the sketch of all PHCCs, PHCs, HPs etc to avoid encroachment and conflicts by the general public
9. The two newly created departments require serious attention considering their importance to the society. Therefore, the local government should find the possibility of providing offices accommodation for the departments and reallocate some staff into the two departments so that they can function effectively
10. There is need for demarcations of office functions between Women Affairs department and Social Development department. As its today, the two departments are working without boundary
11. Local government should set a committee to investigate and recover the diverted Cars and Tricycles with former Councils
12. With regards to Vehicles, the Committee recommends that, the Council should seek for advice from mechanical professional on those repairable and non-repairable for further necessary actions
